Badminton Ball

Very Successful

The Badminton Ball held in the Community hall on Friday evening was one of the most successful dances of the season. A large crowd were in attendance, Nobilford, Reid Hill and Vulean contributing their quota. The hall was attractively decorated in keeping with the occasion and the music which was full of pep, left nothing to be desired. G. M. Campbell was master of ceremonies for the evening, George being at his best for the occasion.

An attraction of the evening was the Te-hocracy girls, who gave a splendid exhibition of "Badminton in the Bree". The lunch club drawn for fell into the hands of Miss Dora Taylor of Carmangay. The luncheon called forth many comments of appreciation. The Badminton club are to be congratulated on the success of their undertaking.

Youthful Resident

Dies in Hospital

The death of Tom Alder, which occurred at the Holy Cross hospital, Calgary, on Thursday morning, January 25, has caused widespread regret among the many friends he had in this community. Tommy had been ailing for some days but was not considered in the slightest danger. Further trouble developed however, and when an operation was undertaken it was found he was beyond help and the fatal ending came quickly. The deceased was in his 21st year. Funeral arrangements will be announced later.

ANDERSON—ASHMORE

The home of Mrs. Ashmore was the scene of a pretty wedding on Wednesday, January 25, when her daughter Lily was united in marriage to Mr. Frank Anderson of Kamloops, B. C. Promptly at 6 o'clock the bride, charmingly attired in a gown of white silk crepe with accessories to match, and carrying a bouquet of roses, entered the room attended by Mrs. Lily Morrison, who wore a powder blue lace gown with silver slippers, and the Misses Betty and Jessie Ashmore who acted as flower girls. Mr. Ernest Ashmore acted as groomsmen. Rev. Peter Dawson of the united church officiated.

Following the ceremony a delicious supper was served, the bride's table being centered with a beautiful wedding cake. After a short trip Mr. and Mrs. Anderson will make their home at Kamloops, B. C.

Best wishes are extended to them by their many friends in the community.

COOLE — HANSON

The marriage of Miss Julia Melinda Hanson, daughter of Mr. and Mrs. John C. Hanson, Champion, and Mr. William Coole, of Barons, was solemnized on Thursday, January 25, at the United Church manse, with Rev. Peter Dawson officiating.

The steady lengthening days tend to make things more cheerful and lower the light bills.

Local & General

Miss Clarkson was a Vulean visitor over the week end.

Clyde Coe and Miles Pharis were Calgary visitors this week.

Miss Patterson visited with Mr. and Mrs. Mallory last week.

Miss Forbes McGillivray returned to Calgary Monday.

Mr. and Mrs. Hagerman left last week to spend the remainder of the winter in Calgary.

Mr. and Mrs. G. M. Campbell were Calgary visitors this week.

We are glad to report that P. Holm is making rapid progress toward recovery.

Mr. Summers is reported as making satisfactory progress towards recovery.

Miss Jean McEwen and Miss Leitha Hopkins have taken a room above McCullough's store.

Mr. A. Kurtz recently purchased a residence from I. J. Adams.

Mrs. M. Sison was a dinner guest on Sunday when her guests included Miss Cook and Miss Cameron.

Mr. and Mrs. Charlie Leach have taken up residence in the house owned by Mrs. B. Anderson.

Mr. Charlie Desson and Mr. A. Stewart are now residing in the house formerly occupied by Mr. C. Starr.

Miss Forbes McGillivray has been a guest at the home of Mr. and Mrs. A. McCullough during the week.

Mr. and Mrs. A. Becker and family and Mrs. S. Fath and son Philip were Calgary visitors over the week end.

Miss Rheta Campbell has been substituting this week for Mr. Farries, who has been confined to his bed due to illness.

Mrs. Moffatt is a patient in the Holy Cross hospital, Calgary, where she is taking medical treatment.

Mr. and Mrs. C. Collison of High River were week end guests at the home of Mr. and Mrs. P. Larkins.

Mrs. D. Clements was re-elected president of the Kirkcaldy W. I. at their regular annual meeting.

Mr. and Mrs. Bastin received a telegram of congratulations from England on the occasion of their Silver wedding anniversary, January 23rd.

K. R. McLean, R.O. of McLean & Anderson, Sight Specialist of 224-8th Ave West, Calgary, will make his monthly visit to Champion, Friday, Jan. 27th at the Drug Store.

Little Bow

Annual Bonspiel

The annual bonspiel of the Little Bow Curling Club was held Tuesday and Wednesday at Carmangay. Ten rinks were entered, Barons, Vulean, Champion, Blackie and Carmangay each being represented by two rinks. Champion was represented by J. T. Stephenson, J. Taylor, A. Woodhull, C. McLean and Dr. H. N. Heal, H. O. Jopling, B. Hummel, A. W. Jopling.

The Browie cup was captured by Champion owing to the games won by Jopling's rink as follows: First round, bye, second round default, third round Jopling, Champion 13, Martin, Barons 5, Final game, Jopling 15, Anderson, Blackie 6.

In the same competition McLean defeated Lebow, Vulean 10-8 in his first round, second round McLean, Champion, Bill Chalmers, Carmangay 10-5, Final game Anderson 11, McLean 10.

The Carmangay club contributed a set of four scarves to accompany the trophy which now adorn the silverware display of the Jopling rink. The visitors are enthusiastic in their appreciation of the efforts made by the Carmangay club to make their stay pleasant.

Card Party

January 31

There will be held a card party in the dining room of the Savoy Hotel on Tuesday evening, January 31, commencing at 8 o'clock. Both whist and bridge will be played. Prizes for each will be awarded. Refreshments will be served. Admission 25c.

THURSDAY, Jan. 26, 1933

Alberta Beet Crop

Final estimates on Alberta's sugar beet crop for the past season, given by the Raymond sugar factory, show that 150,000 tons of beets were harvested over the contracted acreage, and the sugar run will total 142,000,000 lbs. The beet grower of Southern Alberta this year passed the 10 ton per acre average for the total average under contract. In one district the average reached almost 12 tons, while some individual crops ran 15 to 20 tons. The season yielded the heaviest crop yet known in the province. With increased capacity installed last fall, the factory at Raymond produced 450,000 bags of sugar this season, or about six times the amount turned out in 1925.

Coal Production

Alberta's total coal production for 1932 to the end of November was 4,516,632 tons, an increase of nearly half a million tons over the same period of 1931.

Grasshopper Outbreak Expected

Possibilities of an outbreak of grasshoppers in Alberta next spring and summer are reported by the provincial department of agriculture, and the government is making preparations accordingly. A considerable area in the southern part of the province is likely to be infested, large numbers of eggs having been found in the ground. In order to cope with the expected outbreak of the hopper plague, the government has contracted for sufficient supplies of poison stuff to make up, with stocks already on hand, about 150 tons, and these will be stored in Calgary for distribution as needed.

Egg Imports and Exports

How little Alberta depends on imports of eggs is shown by the figures for 1932, which show that only 500 cases of eggs were brought into the province in comparison with an export of Alberta eggs totalling 45,842 cases to outside markets. Exports of poultry amounted altogether to 89 carloads according to final figures just released.

Provincial Savings Totals

As at December 31, 1932, deposits of Alberta provincial savings certificates totalled \$8,584,000, according to figures released on Thursday by treasury department officials. Included in the total on deposit is the amount of business done in the one, two and three year certificates, which were authorized by an amendment to The Savings Certificates Act, passed at the last session of the legislature. The first of the term certificates were issued on April 1st and up until January 1st of this year there has been a total of \$1,045,525 invested in this form of security.

How to Fashion Belts from Package Wrappers

SMART, colorful, aluminized belts, made from the transparent coverings of cigarettes, cigars, candy and other packages, are the craze both in New York and Hollywood, the movie folk sometimes making their belts on the lot between shots. "Cellaphane" has thus taken its place as a material for the practice of another home art easily acquired in these practical times. It is used, not only for belt making in various woven and knitted versions so attractive with sports clothes, but for matching hand bags and hats as well.

Unusual color combinations and patterns are achieved through various methods of weaving the strips. One of

inch wide. Fold the "Cellaphane" as for the diagonal weave, but fold outside edges to the centre crease, then fold again lengthwise, thus making the finished strip 6 inches long by 5 1/2 inches wide. Make the links exactly as for the diagonal weave belt. Hook two links together by inserting the ends of one through the slots of another. Hold the two together with a pin, as shown. Insert a third link (arrow) through the closed end of the first two. Insert a fourth link, looping it outside the first and through the second, on top of it. Insert a fifth link, as shown, and continue until desired length is obtained.

"Cellaphane" in plain transparent variety is as colorful, for the making of these smart belts, may be secured from the protective wrappers now supplied on many household articles or in convenient rolls from any department, stationery or plastic materials are to be had in many

"CELLAPHANE" is the registered trade mark differentiating cellulose cellophane and cello, manufactured in Canada under special arrangements with the DuPont Cellulose Co., Inc.

Half A Million Pounds Of Buffalo Meat Placed On The Canadian Market Last Fall

Upwards of half a million pounds of buffalo meat was placed on the Canadian market during the autumn as a result of the slaughter of some 500 animals from the herd in Buffalo National Park at Watnawright, Alberta. The disposal of these members of Canada's great national herd was made necessary by the grazing limitations of the immense fenced reserve at Watnawright and the 1,200 slaughtered are the equivalent of the 1922 increase. This reduction brings the herd down to approximately 6,300.

The annual reduction of the herd at Watnawright, Alberta, which is administered by the Department of the Interior through the National Parks of Canada, calls to mind Canada's success in bringing back the buffalo. The herd at Watnawright developed from the Paho herd purchased by the Dominion Government in 1907. A total of 710 animals were bought from the shrewd Montana half breed and 631 of these were established in Buffalo National Park while the remainder formed the nucleus of the present herd of over 1,000 in Elk Island National Park. The animals placed in Buffalo Park have increased rapidly during the summer months since the establishment of the park. A total of 6,673 was shipped north to Wood Buffalo Park near Fort Smith, Northwest Territories, in the first year's number a total of 8,890 have been slaughtered, and the meat, heads, and hides disposed of, which together with the 6,300 still remaining in the park make a total of 21,693 animals.

The practice followed in this year's disposal of the surplus animals at Watnawright was the same as in the several years since a reduction of the herd became necessary for its future well being. The entire herd was rounded up and the animals selected were separated and placed in special corrals conveniently close to the abattoir. They included 500 over four years of age, 400 three year olds, 250 two year olds, and 50 aged buffalo. Each day since November 23, when the work began, a certain number were slaughtered and the carcasses inspected and placed in refrigerator cars for shipment to the various centres of population throughout the Dominion. Vancouver, Edmonton, Calgary, Regina, Winnipeg, Toronto, Ottawa, and Montreal all receive shipments and thereby citizens in every part of the Dominion were given an opportunity to enjoy a real feast of arousing interest in a "super hot-john" fight to 10 miles altitude in northern Canada, and with decided notions about the use of tobacco.

The scientist's first act, as his boat neared its destination, was to request interviewers not to smoke and to announce that if he had the powers of a dictator he would prohibit the use of tobacco rather than alcohol.

Asked whether he believed that rocket-propelled ships would come, Prof. Piccard answered in six hours. "Yes. Thirty years ago everyone who considered flying in aeroplanes considered a nut. Now the same thing is sometimes thought of the persons who plan rocket ship flights."

The New York City Chamber of Commerce was the first institution of its kind in the United States. It was organized in 1798, and was incorporated under the royal charter from George III. in 1770.

Less than one per cent. of the children in the elementary schools of London are poorly fed.

W. N. H. 1978

Safety For Horses

Rubber Pads On Shoes Prevent Slipping On Greasy Streets

Successful experiments have been carried out by a rubber company to test the practicality of rubber heels and toe shoes for horses. The majority of accidents to draught horses arise from slipping on the wet and greasy surfaces of modern streets, and it has been found that the anti-slip iron studs used as a protection on icy surfaces accurately rather than decrease the danger. The rubber pads are constructed on metal cogs which can be replaced without removing the shoe from the hoof, and the rubber acts as an absorber of the shock of the constant pounding on paved streets.

Lost English Villages

Thirty Have Disappeared Into Sea During Last 150 Years

During the centuries miles of Britain have disappeared into the sea. A strip half a mile wide has been lost off the coast of Yorkshire in the last 150 years, and at least thirty villages have been submerged.

Lower down the coast, at Dunwich, a whole medieval city has disappeared, and yearly services are still held at the sea's edge in memory of the cathedral and eight churches which were once below the waves.

Not far away, at Pakefield, it is possible at low tide to swim over and touch streets of ruined and submerged houses. London Sunday Pictorial.

By Ruth Rogers

Too Dressed Up
One of the United States assistant attorneys-general who received a notice that his service would not be required after Jan. 1, when the Democratic regime comes in, signalled the announcement by discarding his spats. "I am going back to practice law in a little country seat town," he exclaimed. "I don't think the spats would help me there."

Antarcticite From Britain
Most people are aware that imports of British antarcticite have greatly increased in the past year, but it may not be a matter of general knowledge that from May to October, inclusive, Britain supplied 55.1 per cent. of Canadian requirements, the United States only 45.0 per cent.

THE SCHOOL GIRL APPROVES BIG BOY COLLAR OF WHITE FIGUE ON HER VIVID RED PLAIDED WOOLLEN

It's a bright idea, you will admit for it gives the dress such a neat trim appearance. It can be made detachable, so as to be readily laundered. And don't you think the wide shoulder equidant an attractive feature? The skirt of this easily made dress is snug at the hips. The hem is comfortably full.

It will cost you next to nothing to copy it exactly. Style No. 957 is designed for sizes 6, 8, 10, 12 and 14 years. Navy blue wool crepe with the collar and cuffs of white starched pique is another fashionable scheme. Make the tie of vivid red or vivid green crepe de chine and wear a matching red or green belt. Size 8 requires 1 1/2 yards 54-inch with 3 yard 55-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

BOB GRACE SHOWS HOW IT IS DONE

The young Maple Leaf star, Bob Grace, has not long been in the big league, but already he has annexed the title of "finest skater in the National League." Grace's style and speed are remarkable, and here we see him swinging in to shoot the puck across the ice.

Construction Started On French Battleship

Challenge To Italy and Germany Re-Navies

The 10-year telephone holiday since Great Britain laid down the "Rodney" and the "Nelson" came to an end without ceremony December 31, when the French Ministry of Marine announced work had started on the new 26,000-ton super-cruiser "Dunkerque."

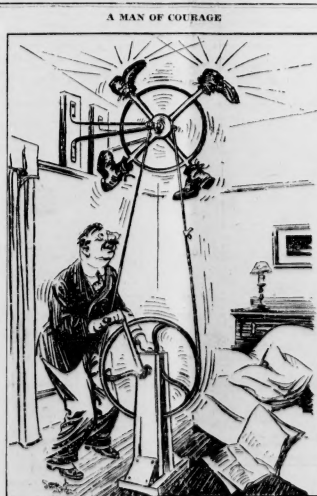

The new cruiser is the French reply to Germany's construction of "pocket battleships." It also was understocked at Paris that the Italian government was hastening completion of plans for a super-cruiser of even greater size, which will have a tonnage of at least 27,500 and still be capable of speeding 35 knots.

The "Dunkerque" will require four years for building and will cost \$24,000,000.

Government Spokesman Denies Charges Regarding Wholesale Deportation Of Immigrants

Dog Team Racing Events

Dog Derbies Now Among Leading Winter Sport Attractions

During the past few years dog team racing has taken its place among Canada's leading winter sports attractions. At one time enjoyed only on the outskirts of settlement where the dog train formed an important part of the means of winter transportation, this fascinating and exciting pastime has rapidly gained favor among outdoor enthusiasts and may now be enjoyed in many cities, towns and rural sections in different parts of Canada during the mid-winter season. Dog derby competitions arranged in many winter sports areas in Canada are an outstanding attraction in Canadian winter amusements.

Owners of dogs who find it an easy matter to enter dog-racing teams in these exciting events, as it is not necessary to declare any particular breed of dog, age or other qualifications as in the case of horse-racing events. Huskies, pointer dogs and other breeds are therefore permitted on an equal footing in all dog-racing competitions. This winter will, no doubt, witness some exciting events between old rivals and new competitors.

Participants in the Junior Dog Derbies are just as keen as contestants in the major events. Prior to the staging of these races the amateur mushers put in long weeks of diligent training with their entries. The day arrives when a motley collection of dogs and sleighs gather at the starting line. Huskies, Airdales, Collies and other breeds are in evidence, and there are dogs of unknown origin, all true pals of boyhood. Forgotten are the lessons of training days when these canines gather at the track. Doggy friendships are renewed, and old enemies are not allowed to leave. The stir and bustle is confusing to spectators and starter alike. At last they are off, some on the track, and others on highways of their own choosing. True it is a burlesque, but a hilarious and amusing one and at the end some youngster is proud and happy in the possession of a coveted trophy.

Farmer's Best Customer

Poor Man Spends More In Proportion Than the Wealthy Man

Another reason for the farmer's plight has just been unearthed. He has too many wealthy customers. Turning the spotlight on this seemingly paradoxical situation, the California Prune & Apricot Growers Association has found that wealthy customers are poor customers, judged from the farmer's standpoint. While customers with small incomes are the best.

Figures presented by the State Agricultural Legislative Committee show that the man earning \$1,000 a year or less spends \$32.50 for food in a year. The man whose income ranges from \$3,000 to \$5,000 annually spends only \$14.90 out of each \$100, while the millionaire, with an income ranging from \$69,000 a year upward, spends only 20 cents out of each \$100 to supply his table.

While the man of wealth spends more, as an individual, for food, the greater his wealth the less the return to the farmer. In other words, the same wealth distributed among a dozen families would bring approximately 12 times the demand for farm produce.

The analysis, it is declared, furnishes an interesting commentary on the vital effect of the distribution of wealth in the United States and throughout the world, for that nation's farm markets. Concentration of national wealth in a comparatively few hands was one of the tendencies of the war and post-war boom periods.

If the present business slump serves, to some extent, to lessen this concentration of wealth, it will at least be of benefit to American agriculture, hard as it may be on some millionaires, the committee declares.

Teacher—You say your voice has volume?
Pupil—Yes, volume, I can throw it out.

Teacher—Well, throw it out in the alley.

There are more than 1,500 languages and dialects used in the Americas.

Fish cannot exist in the Dead Sea on account of its extreme salinity.

Of the 5,552 "public charge" cases deported from Canada during the 19 months ended with November last, 70 per cent. returned to their former homes willingly, if not at their own request, and only nine per cent of the total took advantage of their right to appeal to the Minister of Immigration.

In a statement issued by Hon. W. A. Gordon, acting minister of immigration and colonization, it was emphatically denied that the department was effecting wholesale deportations with the object of relieving the unemployment situation. Reports appearing recently in some Canadian newspapers, with regard to deportations, were described as "highly colored fiction."

"I have thoroughly reviewed the records for the past 12 months," said Mr. Gordon, "and find that during this period the department deported 5,552 public charge cases; of this number, 39 per cent. had, themselves, applied to the department for deportation; 10 per cent. were deported as a result of further employment in Canada; eight per cent. would not accept work except at exorbitant wages or demanded a disproportionately high wage; 14 per cent. stated they expected to obtain employment in their native country; 14 per cent. wished to return to their homes; 14 per cent. were deported as the result of illness, and nine per cent. applied against deportation. Of the 5,552 public charge cases, 3,658 were British subjects returned to the British Isles, and of these, 46 per cent. applied for deportation; 19 per cent. refused to accept further employment in Canada; 16 per cent. expected to obtain employment in Britain; six per cent. demanded exorbitant wages; seven per cent. were deported through illness, and six per cent. applied against deportation."

Thus the figures quoted established that over 70 per cent. of the public charge deportees were anxious to return to their former homes, where they evidently considered they could better meet the present adverse conditions due to the fact that in their own country they would be at least with relatives and friends."

The minister stated that in numerous cases the department had refused and suspended deportation orders only to have the persons concerned insist that they be returned to their native country.

Mr. Gordon emphasized that deportation is not carried out by department officials as a routine matter or by any automatic procedure. Each case is treated as an individual human problem and the circumstances surrounding such cases are carefully reviewed and thoroughly reviewed before a final decision is reached, he said.

Situation Is Absurd

Ships Carrying Gold Between Countries Instead Of Merchandise

The Midland Bank, the largest joint stock bank in England, points to the absurdity of ships racing across the Atlantic in both directions with cargoes of gold instead of merchandise. The bank complains that gold no longer operates in different countries, nor does it any longer govern the trend of commodity prices. But it is not that because the proper functioning of the gold standard depends upon a reasonably free exchange of commodities between nations. If the restrictions on international trade were removed, even partially, the gold standard in practice might conform to the classical theory.

The Sale Of "Antiques"
The latest "racket" in Greece has to do with the sale of antiques. The story goes that a foreign museum has paid \$300,000 for the reputed head of Apollo's statue. Which, recalls Mark Twain's yarn about the tourist who, on being shown a skull of Alexander the Great, said he had seen it elsewhere. The ready retort of the guide was that the skull on view was that of Alexander when he was a boy.

Amey Johnson has been awarded the gold medal of honor of the League of Youth, for her recent Capetown flight.

Twenty sailors from H.M.C.A. Skeena, arrived in Halifax recently on their way to England, where they will take a course in gunnery.

The Canadian Authors' Association is going to tour the United Kingdom during the coming summer. The party will sail from Quebec on July 1.

Dates of the fifth Pacific Science congress which is to be held in Vancouver and Victoria, have been fixed. It will be held from June 1 to June 25.

Freedom for the Philippines was granted by the United States Congress, the senate voting to override President Herbert Hoover's veto of the Independence bill.

Canada moved into fifth place among the exporting nations of the world in 1932 according to a preliminary survey of world trade, carried out by the Dominion Bureau of Statistics.

Establishment of a memorial to Canadian and American soldiers of the war, in the form of an international forest of 10,000,000 acres, is being considered by conservationists of the two countries.

Inspector Gilbert Smith, Ottawa, and Inspector E. R. Jackson, of the Dominion penitentiaries branch, are being retried on reorganization of the branch, it was learned in official circles.

The agreement arrived at during the Imperial Economic Conference between the United Kingdom and Canada which will modify the restrictions on the importation of Canadian cattle came into operation on January 17.

A case of leprosy, the second within a year, has been discovered in Toronto. The man is in isolation hospital, and will probably be taken to the leprosy colony in New Brunswick. He is a former resident of Rio de Janeiro, where it is believed he contracted the dread malediction.

Bright Colours Coolest

Color Has Much To Do With Keeping Refrigerator Cars Cool

The current issue of the Cold Storage News Letter, issued by the Dominion Dairy and Cold Storage Branch, contains reference to the results of tests which have been made to determine the relative value of bright and dark colours in keeping refrigerator cars cool. These studies show that the colour with which a car was painted had much to do with the degree of penetration of solar heat into the car. There was less penetration of solar heat through light-coloured paints than through others. Under like conditions of radiation and exposure to sunshine, car surfaces painted red were better than those painted black. It was found. It was found also that the difference between air and surface temperatures for stationary cars was about twice as great as for moving cars.

Does Not Happen Often

Remarkable Record Concerning Ex-Presidents of United States

Only four times in the history of the United States have there been periods in which there were no living ex-presidents.

The first was between the death of Washington in December, 1799, and the inauguration of Thomas Jefferson in 1801.

The second occurred during General Grant's term as President, when the death of Andrew Johnson in July, 1875, left the nation without a living ex-President until Grant was succeeded in 1877 by President Hayes.

The third period in which there was no living ex-President occurred in June, 1908, when Grover Cleveland died.

The death of Calvin Coolidge creates the condition for the fourth time.

Recipe For Long Life

"Stay Single!" Says Oldest Woman In South America

To live long, don't marry. This is the advice of Donna Rosa Huenda Tober, the oldest woman in South America, who has reached the age of 129. At her home in Santiago, Chile, she said, as she smiled through her wrinkles: "I should never have lived so long if I had had a husband." Her birth is inscribed in the register of the old Spanish Colonial Church. She still takes in washing, the work she began as a girl when the Chileans were fighting the Spaniards for independence.

By Ruth Rogers

The story is told of Alexander the Great, that when he was leaving Macedonia, he made so many lavish presents to his friends that one of them asked him, "But what are you leaving yourself?" The reply was, "My hopes."

So full was the mind of the mighty conqueror of the countries and nations yet to be brought under his sway and the treasures yet to be gathered into his stores, that all the riches already won were as nothing in comparison.

Men's greatest assets are their hopes. This is true especially of those who stand at the beginning of life and look eagerly forward to the good things which the coming years may bring. But it is well to remember that the realization of our hopes for the future depends on our making the best use of the opportunities of the present. Hopes are assets of the utmost value, but they will become "ruined assets" unless we do our part to give them life.

IT HAS ITS POINTS - AND THEY'RE SLENDERIZING GRACEFUL ONES

One of them is the deep inset with brief bolero effect that narrows the bodice breadth. The padded skirt is smart and slimming. The puffed sleeves, just moderately full, with snug fit about the wrists, give the arm graceful length.

Carry out the original in black rough crepe with the vest and rolled collar of geranium-red crepe - you'll adore it.

Crinkly crepe satin can be used to surface for contrast.

Sheer woolsens and velvet are also suitable.

Style No. 963 is designed for sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust.

Size 36 requires 21 yards 28-inch with 5 yard 50-inch contrasting.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

FAMOUS AVIATORS IN NEW ENVIRONMENT

Practically every photograph taken of Amy Johnson and her no less famous husband, Captain Mollison, in recent months has shown the daring fliers landing after breaking a record, or blasting off on a long-distance flight. Here's one that is a little different. Amy and her husband are pictured in St. Moritz, Switzerland, starting out on a trip to a new kind of speed which is almost as exhilarating as flying.

Realization Of Hopes

Depends On Making Best Use Of Present Opportunities

The story is told of Alexander the Great, that when he was leaving Macedonia, he made so many lavish presents to his friends that one of them asked him, "But what are you leaving yourself?" The reply was, "My hopes."

So full was the mind of the mighty conqueror of the countries and nations yet to be brought under his sway and the treasures yet to be gathered into his stores, that all the riches already won were as nothing in comparison.

Men's greatest assets are their hopes. This is true especially of those who stand at the beginning of life and look eagerly forward to the good things which the coming years may bring. But it is well to remember that the realization of our hopes for the future depends on our making the best use of the opportunities of the present. Hopes are assets of the utmost value, but they will become "ruined assets" unless we do our part to give them life.

Revenue From Hay Lands

During the last fiscal year which ended April 30, 1932, there were 477 hay permits granted on the public domain in Saskatchewan under which 4,831 tons of hay were cut, and 320 permits granted on school lands which produced 30,733 tons or 7,924 tons in all. The revenue from the sale of hay permits on provincial crown lands during the year was \$1,687, and on school lands, \$1,057 or a total of \$2,744.

Wife: "Will you love me if I get fat?"

Husband: "No. I promised for better or worse—not thick or thin."

Recipes For This Week

(By Betty Barclay)

FAIRY SPONGE CAKE

(Makes 1 Cake)

- 1 1/2 cups sugar.
 - 2 tablespoons corn syrup.
 - 6 tablespoons orange juice.
 - 6 eggs.
 - 1 teaspoon grated orange rind.
 - cup flour.
- Bowl first three ingredients to about three (24 degrees to 242 degrees Fahrenheit). Beat egg whites until stiff but not dry. Continue beating while pouring hot syrup over the whites. Fold in well beaten yolk, grated rind and lastly the flour. Bake in an ungreased tube pan 35 minutes to 1 hour in a slow oven (350 degrees to 325 degrees Fahrenheit). Frost with boiled orange icing. Store in airtight cake tin.

DINNER PUNCH

(Serves 4-6)

- 1 cup orange juice.
 - 1/2 cup lemon juice.
 - 1/2 cup grapefruit juice.
 - 2 cups water.
 - 5 tablespoons sugar or honey.
 - Orange slices.
- Blend thoroughly. Chill if desired.
- Variations: Add to the above mixture 1 cup of the juice of another fruit, such as grape juice, raspberry juice, loganberry juice, pineapple juice, elder or the juice from any canned fruit.
- Or add 1 cup of a pure made by forcing peaches, pears, apricots, nectarines or berries through a potato ricer or coarse sieve.
- Turkeys living in their natural state roast in trees.
- Germany has 60 different weekly publications devoted to radio.

SUNDAY SCHOOL LESSON

JANUARY 29

JESUS AND THE SABBATH

Golden Text: "The Sabbath was made for man, and not man for the Sabbath; so that the Son of Man is Lord even of the Sabbath." Mark 2: 27, 28.

Lesson: Mark 2: 1-3, 4-6.

Devotional Reading: Psalm 122.

Explanations and Comments

Comment For Not Fasting, 2:18-22—The Pharisees were continually being angered by Jesus' refusal to be bound by the religious practices of His time. There was only one day of fasting during the year prescribed by the law, the great Day of Atonement, but the strict Jews at this time fasted on two days each week. Jesus paid no attention to these weekly fast days.

Comment For Breaking Their Sabbath Law, 2:23, 24—A still greater offence to the Pharisees was the refusal of Jesus to be bound by their manner of keeping the Sabbath, which they had perverted from a day of rest and gladness to one of burdensome rules and gloom. They charged Jesus with allowing his followers to pluck and eat ears of corn as they passed through the fields on the Sabbath. On any day except the Sabbath it was lawful to do this, for the law in Deuteronomy 23:25 reads: "When thou comest into thy neighbor's grain, and the sickle is in the ear, pluck the ears with thy hand; but thou shalt not reap with a sickle on thy neighbor's standing grain. To do this on the Sabbath, the rabbinical law claimed was violating, and Jesus broke the fourth commandment, which forbade work on that day."

Jesus' Attitude That the Sabbath Was Made For Man, 2:25, 26—Jesus said that the point as to whether the Sabbath had been decreed, said nothing about the rabbinical law, but that the Jews could be set free from good and sufficient reasons. There is a law that the showbread, which the priests could be eaten only by the temple (Leviticus 24:9), yet when David and his companions were hungry at Nob they received the holy bread from the high priest, and ate it. "Did ye never read what David did?" questioned Jesus. They also said that it was not lawful for David to eat the showbread as he had the disciples to place corn on the Sabbath. The showbread was the freshly baked loaves made in a fine flour which were placed on the Sabbath on the table in the holy place of the temple (in David's time in the tabernacle) and left there for a week.

"Book and church and day are given For man, not God, for earth, not heaven."—Whittier.

The Lord Of The Sabbath, 2:27-28—Then Jesus made His great assertion, the first part of which was that the Sabbath was made for man, and not man for the Sabbath. The Sabbath is a privilege, not a burden, and the way it is observed depends upon man's need and advancement.

"The Sabbath is a means to an end, the end is man's true welfare, the attainment by him of his true destiny. He who is himself inhumanly arrived at his goal, has surely a right to say how the means may best be employed."—J. M. E. Ross.

Queen Mary Popular

Close To Hearts Of British People

Says Prince Of Wales

The Prince of Wales is quoted as saying that his mother, Queen Mary, is closer to the hearts and minds of the English people than any member of the royal family. A motherly soul, the queen has a faculty of doing things that attract favorable attention. There is the case of Arthur Topple, for instance. He is one of the active workers at St. Swithun's Mission, Tooting. He is just 17, and when the mission decided to hold a bazaar, Arthur conceived the idea of writing to Queen Mary and asking if she would contribute a few gifts for the Christmas fair. Imagine the surprise of Arthur and the others in the mission to receive a reply from the lady, telling her to her Royal Highness to give the gifts. The queen wrote to brag about. In a couple of weeks, back came a letter from H. Duce apertaining to the incident, bragging that the lady didn't really judge all his countrymen by the one he had example she met, and enclosing his own check for the amount of £25.

A couple of weeks later the lady got another letter from Italy—that it wasn't from Signor Mussolini. It was from the brigand who had sold her the watch. The government, he said, had closed down his shop, fined him, and was about to escort him to jail to do a six months' stretch. Would the lady please intercede?

The lady, very much moved, decided she wouldn't. From Florence.

Photo By Flashlight

A new "black light" electric bulb by which a flashlight photo can be made in apparently complete darkness was described to the Illuminating Engineering Society of Newark, New York, by Samuel G. Hibben, a lighting engineer.

There are about 1,125 species of trees in the United States.

TO SEE HER FAT GO

Cost This Woman 75c.

If you are curious to know what is happening to her bust, waist, and hip measurements, read her letter:—

"I was 196 lbs. when I started taking Kruschen three months ago, and am now 102 lbs., and I hope to reduce my girth still more. Regarding my measurements before taking Kruschen: I was 41-ins. bust, 38 ins. waist, and 49-ins. hips, and now I am 38-ins. bust, 36-ins. waist, and 45-ins. hips. My age is 29 years. A T.C. bottle of Kruschen lasts me a month. I take one-half-teaspoonful in a tumbler of hot water each morning before breakfast. Apart from losing weight, I feel so much better in health. I do not wake up in the morning feeling tired, and do not get headaches like I used to. I cannot thank Kruschen enough."—(Miss M. A. H.)

Kruschen contains those six mineral salts, proportionately balanced, found in the waters of those famous European Spas used by generations of fat people to reduce weight.

Kruschen helps blood, nerves, glands, and body organs to function properly—youth gain new strength and energy—feel years younger—look better, work better.

No Merger With Canada

Premier Of Newfoundland Says Confederation Not A Live Issue

Possibility of confederation with Canada is not a live issue in the Dominion of Newfoundland, Premier F. C. Alderdice has stated definitely that the subject was not even discussed during the Imperial Conference at London, nor in the negotiations with the United Kingdom and Canada which led up to the two governments lending the island dominion £12,500,000 this month to help her meet bond interest.

Nor has the disposal of Labrador been considered. Despite the persistent vigorous demands, however, and the general incredulity with which the populace regards current reports, the two hasty perennials—confederation and Labrador—have been getting some attention lately from the gardeners of gossip.

Apparently the announcement on December 29, that pursuant to the British and Canadian laws, a royal commission would examine "into the future of Newfoundland," had the effect of starting the confederation subject again. The premier replied with an emphatic "No!" when he was asked if any such interpretation could be placed upon the statement.

There is no doubt that confederation would be opposed strongly in many quarters should the question become a serious issue. Newfoundland industrial concerns would be against removal of protective duties they now enjoy, and the throwing open of their market to Canadian firms. Then, too, Newfoundland depends for her governmental revenue on levying imports. And there is widespread clamor in this island, an ingrained opposition to anything that might tend to submerge Newfoundland's identity as Great Britain's "oldest colony and newest dominion."

Mussolini Made Good

Showed His Power When English Lady Was Cheated By Watchmaker

An English lady bought a lovely watch in Rome, and paid £35 for it. Proud of her buy, she took it to a London shop to have it appraised before insuring it. The jeweller told her the watch might be worth a pound, but no great bargain at that.

Enraged, the English lady could think of only one thing to do. She sat down and wrote direct to Mussolini, telling of the deception and adding bitterly that she didn't think ruling such a people was anything to brag about. In a couple of weeks, back came a letter from H. Duce apertaining to the incident, bragging that the lady didn't really judge all his countrymen by the one he had example she met, and enclosing his own check for the amount of £25.

A couple of weeks later the lady got another letter from Italy—that it wasn't from Signor Mussolini. It was from the brigand who had sold her the watch. The government, he said, had closed down his shop, fined him, and was about to escort him to jail to do a six months' stretch. Would the lady please intercede?

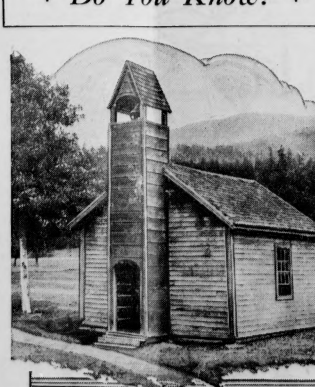

The lady, very much moved, decided she wouldn't. From Florence.

The Cleverville

Pioneer Club

The annual gathering of the above organization will be held in the Community hall, Champion, on Friday, February 3, 1933, at 8 p.m. A musical program, followed by dancing to old time tunes and the annual business meeting of the club.

Supper will be served in the banquet hall during the evening. All members attending are requested to bring refreshments as usual.

A registration fee of fifty cents will be charged all persons fourteen years of age and over.

These newspaper notices will be the only intimation given of this annual gathering, and all those eligible to membership in the club are urged to plan and be present.

H. A. Williams, president.
H. Cooper, secretary.

Vulcan Players

Visit Champion

Vulcan visited the local Badminton club this week. Many interesting games were played, the total score being, Champion 331, Vulcan 181.

Contestants from Vulcan were: Mr. and Mrs. McManis, Mrs. King, Misses Maher, McPherson, Warden, McIntosh, W. Wright, N. Budd, Mr. Lockhart, Mr. Black, Mr. Donby.

A number of young people from town gathered at the home of J. D. Goodnight on Friday night and enjoyed an evening of fun.

Mrs. Matt Roberts, who was operated on recently in Los Angeles, is recovering nicely. Miss Viva Hopkins is the nurse in attendance.

Dr. and Mrs. Giles of Milk River, Mrs. Crockett of Lethbridge and Mr. W. Ryan of Warner were weekend guests at the home of Dr. and Mrs. Hunt.

Mrs. J. Cain received the sad news of the death of her brother-in-law, Mr. W. J. Gray of Abbotsford, B. C., on Thursday evening, January 19, Mr. Gray passed away very suddenly.

In Memoriam

In loving memory of our beloved husband and father, Dennis Ashmore, who passed away January 31, 1930.

"Remembered"

Inserted by his wife and children.
